GM thanked the Hares for their work and a super laager, hidden away at the back of the Air Park.

HASH HORN in...the lucky recipient this week was Rampant Rabbit. Despite being a bit crook, RR did a great job..but was well stuffed at the end of the Run..get well soon RR and thanks!

LUCKY LEK SPOT..Don't listen to Cartoon, you do want to know our Khanom update..we have now got 98 booked in, with a promised maybe of 3 more..come on let's get our TON UP!

Time to thank our Hash Flash, in come Google Ass and Tequilla Slapper. They do a great job of keeping a pictorial history of what we get up to on the Hash. They took what No Hope called the picture of the year...McFurher SWIMMING, when of course he should of been WADING!.In comes McFurher to be presented with his very own WATER WINGS by Scubber and Give Me A Stroke..Well done TS and GA!

GM calls in Bum Scrapper, looking for all the world like Jackie Kennedy (and as rich!). I called the Iron Pussy in to give her some moral support. She happened to mention to the girls she was looking for a bit of cock...I asked her what type of cock did she want..she answered...any cock will do..so there was only one thing I could do...call in ANY COCK WILL DO..in he came to a big cheer from the girls...(young, tall, well built guy, you know, the type of prat you don't want to live next door to!) I instructed Bum Scrapper to take his shirt off (didn't have to tell her twice!). I then gave BS his VIRGIN HARE SHIRT so she could put it on him...well dome Bum Scrapper and well done ACWD, for your first of many Hares!

Family Gorgeous in next..all of them, Mona Lisa, Nike, Little Wanda and mom..No Cup...This family of Hashers have a combined total of...3718 Runs...This will never be bettered and will remain a record to be admired!

VIRGIN in..just the one little Thai girl who came with the beer truck (Butt Plug has all the fun!). Our Water Babe, Too Old To Fuck gave her plenty of water!

NEW MEMBER in...Su Su Nonna..She seems to be around for a long time but today it's her 5th

Run...Welcome. SS N is coming to Khanom, along with her husband What Da Ya Mean..glad you are joining us!

RUN SHIRTS..Black Hole Driller got his 50 Run shirt...well done another 12 months and it's 100 up!

STEWARD...Cartoon..Hares in talk of 5.2 K..then 9.2 K..his GPS said 8.5...get yourselves a new GPS! Murkury and Fungus in..they were in a bar last week, Fungus asked, what you think of the Olympics? It reminds me of the wife and sex...I only have it every 4 years! Fungus and his wife were married for 15 years and he told his wife..I have always been color blind and never told you..Oh it's OK said his wife...I never told you I am really from Ghana! Singha and Manneken Pis in next..Singha went to the Doctors and told him he thought that his wife was deaf..you will have to test her, said the Doc..Just ask her a question from a distance and see if she answers you..this he did..asking her what we had for dinner...from 4 different distances, no answer..Until he was standing next to her and she said...for fuck sake I've told you 4 times..fish and chips! MP bought a robot that slaps your face if it knows you are lying..MP asks his son where did you go..just to my mates..SLAP..where? I went to the pub..MP asks his wife..what movie did you see last night..Peter Pan..SLAP..what movie? OK it was a porn movie...Shame on you, says MP I never watch porn...SLAP! Many more as well. Great spot Cartoon, thank you!

RUN OFFENSES...Manneken Pis got in first (for a change)..Hares in, following on from Cartoon..The GPS was a waste of time.... he told Fungus to sell it so he could buy a better pair of shorts..one's that fit! Lesser Dipshit gets in Goreous and the GM...explain the rules to the GM...Gorgeous told me that I could not introduce a bell to the Hash without asking the committee first...bit late G..I have used it for 6 weeks! Blue Harlot calls in the Hares..How many beers are the Hares allowed? 12 between 3 Hares..Oh, so Tequila Slapper..how many have you had..NONE, she says..Fungus? FIVE....JC? SEVEN...you greedy bastard! What A Rat gets the Hares back in..They mentioned in their pre-run instructions that there was barbed wire marked with banana leaves..well no one saw the leaves..where did they go to? Also they wrote on the web site..no parking on the grass...er! and now?

DEPARTERS in..well you are the unlucky ones...see you soon!

BEER BITCHES in, we will never get fed up of thanking them..Well done girls, thank you!
