Hares: Baldylocks, Ya Ba, & Bejorn To Run (VH)

phuket-hhh.com

Our hares gave us a bit of a different perspective to the hills surrounding Bang Wad reservoir from a laager we've often used along the ridge overlooking the reservoir. As we wound and climbed to a peak with spectacular views that perspective involved sometimes looking at a section of trail so steep that leaning forward just a bit let you touch the ground. To make sure everyone fully appreciated the never ending climb the hares stretched it out by first taking us down to the reservoir so we could climb without any relief, which brought back horrible memories of the brutal climb given us by Murkury / JC / Bluey run a few weeks back. Good training for the virgin hare!!

***Campari* Agrees Holding Hash Shit Proper**

Nonetheless we had some new trails and a lot of beautiful wet and alive jungle. Well done hares. Good Run it certainly was. In fact it was so good that when the hares were brought in for final judgment the current Hash Shit holder *Campari* admitted he really did deserve Hash Shit and in his own opinion he should continue to hold it. He then reinforced his opinion by being the only person to call *hash shit*. It's refreshing to see a man turn honest. Oh, wait a minute, that wasn't *Campari* but his stand-in.

Among run offenses like endless blacktop and concrete our Runmaster Manneken Pis complimented the hares and GM for arranging a laager having several well place utility

lights on poles lighting up the circle so we could actually see each other as darkness fell.

Swollen Colon handled the stewarding giving us a bunch of one-liners that he must have inherited from Rosie. Calling in a Russian and an American SC said the American boasted he could stand in front of the White House and yell Fuck You Biden. The Russian bragged he could stand in Red Square and yell Fuck You Biden too! The American said he pissed all over the fence at the White House; the Russian said he'd taken a shit in Red Square. Leveling out the American confessed he'd really squatted in the bushes by the White House fence when he pissed. The Russian then confessed he'd really shit in Red Square, but he hadn't taken his pants down. Well done SC.

NEW SHOES, *Ahhhh, the flavor of sweaty, toe-rot tainted beer!!*
