**Nai Harn Beach**

#### The Run & Hares

**GM** calls the rabble to order and requests the Hares (**Who The Fuck Is Alice, Heru, Kiss My Ring & Tony VH**) into the circle. There was a slightly slow response to this request with only three Hares making an appearance. **GM** queried the location of the absentee and was informed he was outside. I guess that must mean something in Francais since at that juncture I would have we were all outside!! The RunMaster's presence was also called (**Secret Agent Dick Gobbler (SAD G)**) to perform one of his weekly extensive duties i.e appointing the official **Hash Horn Blower** for this week's run. This week the doubtful honour went to

**Who The Fuck Is Alice** then started to reveal the detail requirements which is of no particular surprise but when it was all presented in Anglais then that was a shock. In my case the shock came out as a rather loud verbal fart which reached WTFIA's ears as I was standing very close to him and I got a very hard stare back

Instructions were that Runners and Shortcutters will all start on papier multicolore . At some juncture on the trail the Shortcutters will split off marked by papier bleu. They would then eventually rejoin the main run and come back on papier multicolore. WTFIA also said the run was mainly flat.

We were then all requested to get off the island over the bridge and then right and right again when we hit the road. Then it was a longish run down to the other end of the lake where we had to look for le papier multicolore. This then took us up a track and there we found the absentee hare who directed us off the track and into by bush. This was relatively slow going and eventually we came across a fallen hasher who had twisted his ankle. He was being ably seen to by a group of

hashers and my stick. So I was very happy to be of some help but if truth be known I was probably better off without it.

The route carried on in a similar vein until we came out onto a boggy grassy area and then out onto a track. This was all looking very similar to a trail I had done before albeit in a reverse direction. So as we were going up the track I guessed it would be a sure thing we

would be going all the way to the top of the hill. We also passed the Short Cutter turn off as we went up and I could not help but think it was not very well marked which was not good news with so many newcomers on the Hash this week. Sure enough at the top some people were asking whether they were on the Run or the Walk since they were meant to be doing the Walk. After this things were pretty uneventful with nice views as we walked along the ridge and a steady decent back down to the track where we had started from. We also found quite a few Shortcutters so at least knew some had gone on the correct trail.

Once at the bottom a walk/run back along the lake.

## The Circle

**GM** called the circle to order and invited **Just In Beaver** in for non stop yabbing and **Repressed One** for late night shopping

The Hares invited into the circle. No comments of the run. Given a beer and also given a Merci Beaucoup for their good efforts. **Fungus** invited in to see what a VH looks like, No wrinkles etc.

## **Official Business**

**Virgins** – To many to count but thought to be 20 and probably all French. Sounds like rent a crowd by the French Connection. All called in for their induction but only 10 could be found. Then they had to be given a demo by Phuket Hashers how to be inducted.. Much screaming from some of the virgins – mainly the men!!

No hash T shirts – various oiks brought into the circle for a beer for not having an . Butt Cycle was spotted changing into a non hash T-shirt so he could get a free beer. He was duly iced for his efforts

Incoming virgins – another 10 arrived so further round of inductions ensued

## **Hash Names**

First in was – 2691 – Keith who was awarded the name of **Pocket Billiards**

Next in was 2595 – Robert who was awarded the fine name of **Incontinent Maigret**

Last but not least were Couple – **Franck** and **Virginie** who had completed – 30 runs and 2 hares. **GM** picked up on the subject of tattoo's as Franke was sporting a few. He then started to give a diatribe thinly described as a history lesson explaining the various meanings of tattoo in particular a military tattoo. He had made further investigations and derived that it came from the Dutch in the 17<sup>th</sup> Century.

At this juncture all Dutch people were called into the circle ably represented by Tulips and Su Su Nonna.

And still the diatribe continued with GM eventually admitting he had lost the plot so opened it up to the circle for name suggestions.

This was brought to a rapid conclusion with the fine names of Cockhead & Cockhead Sucker being awarded.

## **Announcements:**

**Lesser Dipshit** announced the Tinmen run on 3<sup>rd</sup> April which would comprise separate trails for the Runners and the Walkers.

**Repressed One** achieved 100 runs

## **Steward Spot – Fungus**

The Hares were called in for a beer

GM and BH were called in since Fungus had it on good authority that there had been conniving at last committee meeting about him doing too many hares – so why not make him a steward for one week - that would save at least one haring opportunity!.

**Invisible Man** and **Billy No Mates** were called in as representative Registrars. **The Mighty Quim** had been asked what would make his volunteering more palatable – his response was ice cold beer, So to address this he put **IM** and **BNM** on the ice and their ice cold beer would be served up shortly.

**Repressed One** was called in and asked what he did in his role as Hon Sec – his main role was putting the Heading picture on Hash Facebook page.

**Fungus** read out a list of people and if they were not at the run then a tinman should step in as a representative. Once assembled they asked what they all thought they had in common – well it was that they had all hared with Fungus. So how can he have possibly been accused of Hare Hogging at the committee meeting with such a spread of Hashers being involved. Boos and shouts of derision came back to him from the circle especially when **Fungus** also revealed that this group of people represented a Hare Beer expenditure of Baht 5,000. Perhaps on a more sobering thought the attached image is perhaps what drinking too many Hare Beers does for you. Sad to say but looks like **Fungus** still needs a few more Hare Beers before he looks that good!!!:

**Masarap** and **FA Cup** were called in as the Pinky twins – no photos available

**Invisible Man** and **Energiser Bunny** did the X Ray vision skit. **IM** donned the magic glasses and **EB** had to select a name from the hat. **Pole Position** was selected and invited into the Circle. **IM** was asked to identify what colour bra she was wearing. He said grey and when revealed by **PP** was 100% correct..

## Returners & Departers

## Run Offences

**GM** called in **Campari** for yet again being late for the run

**Tootsie** - Hares in the circle – saw two hares on the run. One was VH Tony and the other was **Hash Horn Franke** who went reccyng with the 'official' hares

**Dr, Jekyll** - **Fungus** called in for bringing a lady Tinman into his list of representative Hares.

Point of order that there could not be a lady Tinman. **Lesser** had to step in and explain that in fact such a situation had occurred.

**Nut Cleaver** – called in the Hares for being out and out liars

## RunMaster

The Runmaster **Secret Agent Dick Gobbler** called **Hash Horn Franck** into the Circle and thanked him for doing a fantastic job.. The Hares were called in to receive **SADG's** view of the run. The Hares had said it was flat run and it definitely was not, The spacing of the paper was too infrequent. **SADG's** overall view however was that it was a good run. When put to the vote of the Circle the final call was that it was a good run and the Hashit should remain with **Fungus**.

**GM** declared the circle closed

**On On!**

**Sweaty Bollox**
