#### STOP PRESS!! – History in the Making

This week saw the Phuket Saturday Hash being run on a Friday for the first time in the 30 odd year history of the Phuket Saturday Hash. What caused this momentous occasion – well a few people who take advantage of the Hash Bus to go to the run (probably less than 10% of those who normally attend ) were worried they might get wet as they try to make their way out of Patong on the occasion of Songkran Water Festival. (Of course there is also the slight issue of traffic jams etc etc !!). So a Friday run it was!!

#### The Run & Hares

**GM** sounded the horn and called for everybody to form a circle. The Hares (**Gorgeous You Wanker, Lucky Lek, Fungus and Not Cleaver**) were invited into the circle and gave extensive instructions to the runners to the effect that you will be on multicolour paper for the whole run and follow the road up the hill till you find the paper. I didn't hear the short cutters instruction but guess they were similar and referred to blue paper.

**GM confirmed** he would be appointing **Pussy Taste Cock** as the official **Hash Horn** for this week's run. (Hope I've got that the right way round).

**STOP PRESS – STOP PRESS – The trail picture now shows the run and the walk. Blue for walkers and red for runners. At least now I can see what I did – I;m not changing the report at this late stage. Please read on .....**

I'm not sure if the trail shown is the run or the walk – it only clocks about 3.3k and I know I ran (walk) on both multicolour and blue. I had a slight contrempt with the ground at the start of the run – the head's willing but the legs don't seem to follow suit. Small letting of blood but we have seen a lot worse. Then a nice scramble to the top of the hill including climbing a tree. I had stick and water with me but no hands left to climb the tree with. First idea – stick the water down my shorts but the water fell out the bottom of the shorts and the stick followed suit. Kindly hashers now waiting in a queue just said 'get your arse up there and we'll pass the water and stick up to you'. Such camaraderie on the Songkran Hash for the old and decrepid.

After that it was plain sailing although I had decided I might do a bit of the walk rather than the run. However it didn't seem to matter what colour paper you were on you were either 'walking with runners' or 'running with walkers'. I also saw the Fungus at what I guess was my second passing of the 'figure of eight' cross over point. He said 'I've been watching you as you tried to decide which way to go the first time'. Which was probably true as I thought this is where I would do the walk but I guess this was still part of the running and walking territory as we still appeared to be on the same trail. Mannekin Pis passed me at this point because he apparently 'started late' again although his view was that he was on time. Potential discussions were no doubt to come later with the GM as to what time we actually started. MP probably thought he was early enough since he was starting on Friday rather than Saturday!!

So then it was up the hill again and this is where I spotted some blue paper so opted for that and as we came down the other side we were then on a mixture of blue and multicolour. And also to come across Fungus taking his illegal photos at the 'figure of eight' cross over point. Then it was On In down the concrete path with a mixture of runners and walkers all the way back to the Laager site.

A very pleasant run/walk – short and sharp – the sharpness in part coming from negotiating the barbed wire at the end of the run.

## The Circle

Well done from GM to the Hares.

Naming for one of the Thai Connection – Supananne - Her boy friend is called E Doc. **Lucky Lek** called in as sponsor and to give translation and pronunciations tips. **LL** says something – **GM** repeats after him and somehow the whole process just goes from bad to worse. Mention of gold, grow, long and so on and so on. Final name given to Supanne is Tong which I still don't know what it translates to. Does it mean she is half crazy. My school boy Thai coming out now!

As it's an historical occasion GM announces 40 Baht beer but just after he noted that some big round purchases had just been completed. French and Welsh particularly suffering in this regard. Well done eagle eyed GM.

Visitors – Enos and Just Injection - husband and wife team from Canada, Darwin Hash – mention of KL and Indonesia as well. Called themselves World Hashers. Great to have them visit.

Virgins - four juvenile virgins – chaperoning by Trainspotter. Mai, Ming, Namnung & Nampun.(one was missing!!)

Followed by somewhat older virgins - Dominique, Guy, Pawada, Sutakorn and Thomas

## Hash Awards

Cockhead – 25 runs

Cockhead Sucker – 25 runs

Fussy Pussy – 50 runs - Finally wearing a hash shirt!!

Jungle Balls - 333 runs - a little bit of a devil – needs to try harder!

Bullet Rash - 700 runs One of the elder statesmen of the Phuket Hash – well done!!

## Hash Steward – Nut Cleaver

Joke 1 - What do a woman and a bar have in common – Liquor in the front - poker in the back. I had to google this to make sense of this one. It's not in the telling!!

Hares in the circle – **NC** says it's been wonderful working with his co-hares but it has had its moments (I know what he means – I've co-hared with **NC!!**) Apparently Lucky Lek turned up pissed and ended in the back of the truck asleep after saying he couldn't do anymore run setting. They then set off down the hill in the truck not realising the tailgate closed – they lost everything going down the hill. The wags around me were questioning how it fell out uphill – gravity defying feats by our wondrous Hares. **LL** put on the ice for his lack of commitment.

**Fungus** apparently is a very clever fellow from the US of A – he has got two degrees – the Basket Weavers back home are very proud of him!!

Next up is a very fine Scotsman **GYW** who has been running with the Phuket Hash since the beginning of time i.e. the 2<sup>nd</sup> run back in 1986. **GYW** asked the **GM** at that time (**Sir Dubai**) what he was going to call the Hash – apparently Sir Dubai responded that 'Why **GYW** it's interesting that you should ask that – I think we will call it the **Phuket Saturday Hash**. And now **GYW** has the honour of not only being at the near inception of the **Phuket Saturday Hash** but also the inception of the **Phuket Friday Hash!!**

**NC** notes that his Co-Hares are a Thai, Scot, Yank and **NC** is the only person who speaks English

**Fungus** as said earlier is a very smart fellow with two degrees. He was spotted in the reception of a very smart hotel in Patong the other day where he had laid his perving leering eyes on a gorgeous young woman who was just getting into the lift. He rushes over and manages to get into the lift before the door closes. Once trapped inside with the leching **Fungus** he asks the young lady 'Can I smell your pussy? She cries 'No, no, no.' And as quick as a flash and being the clever fellow that he is says 'Oh - it must be your feet then'

GM loves his little Johnny jokes. Walking down the road with his son Johnny the other day and comes across two dogs going at it hammer and tongs. Daddy, daddy what are they doing ..... *but I'm stopping there because **NC** screwed up the joke – if you want the correct version try this link – no responsibility for viral infections etc.'*

Enos on the ice and doing a Maraud uninvited - On In tattooed on his butt cheeks. What a sight!!

All the people who came on the Hash Bus were called in - very slow response to this but eventually they appeared suitably embarrassed.

**NC** had heard that the Union rep on the bus had said they will boycott the Hash unless the Hash Day was changed. A chorus of 'bullshit' ensued whilst they were sprayed with water pistols by the Songkran Kids..

Too Old Too Fuck - used to be a Gynaecologist - beautiful woman comes into his office and says she has a terrible pain in my vagina. Ok he said let me have a close look. As he got down to business he started to cry 'Oh my Oh my the most beautiful vagina I've seen. Do you mind if I numb it. Well if it takes away the pain of course you can – so he went num, num.num with his tongue.

Welshman **Butt Plug** was called in. **NC** asked him whether he grew up on a Welsh sheep farm - he said he did. So then **NC** asks 'What's it like to find sheep in tall grass' **Buttplug** walked away with a sheepish grin on his face.

Ladies of the Hash - A great spot by them and looked superb in their Thai National Dress had arranged some water games with support from the Water Pistol Massive.

Various male Hashers invited in to kneel down in a row and pass pots of water over their heads. First round water only – followed by second round with pots filled with iced water. First to finish are the winners – losers get a beer much to the disgust of the Winners!

Welsh Twats and others put on ice for enjoying themselves too much - **JB** plus **MP** the Belgian Welsh

### Annoumenets

Murkury - Pooying run on Sunday 14<sup>th</sup> April – JC or Paper's house depending on your affiliation. Run assured not to be too long - starts at 3.00pm. Everybody welcome for some afternoon fun!!

**Dr F J** - Status update on **Bobby Sucks** medical condition. His condition is improving on a number of fronts but medical staff still working to improve his eyesight. All the Hash wished him a speedy recovery.

### Returners

Lots of long term returners:

**Google Ass**

**Gay Ray**

**Copper San**

**Skippy**

**G String**

**Paru Paru**

**Miss Mafia**

**Hide & Seek**

**She's Easy**

### Run Offences

**LL** calls in **Too Old To Fuck. TOTF** tells **LL** he has no chance with the young girls because of his Hash Name – **LL** suggests he change his name to **Not Too Old To Suck.**

**Manekin Pis** and **GM** - **MP's** daughter asks if she can come to the Hash. **MP** says of course you can. Well will I need a shirt – I'm scared of the **MG**. **MP** says 'Don't you mean the **GM**. Oh yes, she says - the fat one.

**Go Go Trump** – calls in **Just In Beaver** and **Fungus**. **GGT** was having dinner with **JIB** and expressed her concerns about the amount of time **Fungus** spends on the ice and how it could effect his sperm count. **JIB** says I wouldn't be bothered – we don't want him procreating anyway. However **GGT** is a kindly soul and presented the **Fungal One** with some Ice Pants.

Murkury – wished to thank some people who gave him some pleasure the other night at the Little Expat with the Iron Pussy - being there with the GM having a few quiet beers to the bitter end. Well worth the experience and highly recommended night out once a month when Iron Pussy are out on the razzle.

Enos calls Butt Plug - if he ever goes to New Zealand he should learn how to do the Haka - starts with - come Martin come Martin or words to that effect.

Tootsie – kids into the circle - a few years ago when Tootsie was meeting when he GM - had a serious issue at a Committee realised he was the youngest person there. What would happen when all this lot die off. Very pleased to know he is no longer the youngest person on the hash now,

Mean Mummy ‘Oh Yeah soaks Celine too her efforts.

**Fungus** – Incoming **Bum Scraper** finds would let her back to the Laager. **Bum** to short cut and gets caught up in barbed wire. Fungus (according to him) went above the call of duty and freed her boobs from the barbed wire after he agreed with **BS** he would accept payment of the gold chain for performing such a difficult and intricate operation. How can you believe this man!

ago when Tootsie was meeting when he What would happen know he is no longer

the skin – gets iced for

the gate is locked that **Scraper** then decides

## RunMasters

Even though we have two Hashmasters not one of them to be seen – they probably still think it’s a Saturday Hash. Anyway GM does the necessary,

GM declares that the due to the current stalemate of Fungus (the current hashit holder) being a Hare virtually every week and seems to be getting away with Good Run votes each week, As well as this the GM had decided last week the Hashit should be held in Escrow with Fungus temporarily held in absolution. Comments on the Laager site were that it was very small but equally it’s a nice location but due to the expense is probably passed its sell by date. Anyway a good run vote ensued in spite of the shortcomings of the Laager site and the Hashit was ceremonously put back on the shelf again and probably that is where it should stay – however please read on ....

GM declares the Circle declared.

Scribe reopens the circle in his mind’s eye!!

You will have read at the start of the report that I had no real idea whether the google earth route shown is the walk or the run. It only scales at 3.3k ish so could be either, as the run was short anyway. I therefore thought I would consult the oracle i.e. I’m fingering Fungus and all he said was that he posted Simons walk. Now this set the alarms running because I didn’t know we had a Simon for this week’s run. We have Gorgeous You Wanker *Jim*, Lucky Lek *Kittiporn*, Denny the Fungus and *Tony Not Cleaver* but not a *Simon* amongst them. Now you may recall from the previous week’s run that the GM got slightly confused about how many hares there were and then said rather unconvincingly ‘Ah I must be getting confused with next week’s run’. But what was confusing him – was it the fact that for this week’s run it was declared as four hares but in fact it was five who actually set the run even though it was short. Was GM involved in some sort of insider faux pas. Is his decision to putting the Hashit in Escrow related to this. Has he been overcome by the Hare Hoarders. Is it the same Hares who set all the named or otherwise runs. Is there concern about giving the Hares the Hashit each week which may drive them to withdrawing their services. Then where would we be.

So why am I writing all this – well this is my last scribe but one before I disappear off island for six months. When I get back there will be a new committee in place and hopefully a new scribe – in fact there needs to be a scribe in place for 27<sup>th</sup> April onwards.

So back to this week's non-Hashit – will this historical event actually become known as the first Friday Fuck Up run – will Gorgeous Jim still wish to be associated with it as Lead Hare. What was No Hopes Simon involvement with the run – did he master mind the whole thing. Does GM want to rethink his previous actions – it's never too late.

And some suggestions for the future:

#### Point 1

I understand from the illusive Phuket Sat Hash rules that Hashit is the preserve of the Hares only – where I cut my teeth on the Hash i.e. Abu Dhabi Hash (1980) which then became Abu Dhabi Island Hash anybody could be given the Hashit – i.e. the person chosen as the worst offender of the week. And as part of that they would go through the toilet seat ceremony plus don the YELLOW hashit tee shirt which would have just been worn on the run by the previous week's recipient, no doubt be nice and sweaty and would be thrown into the sand before being given to the current weeks recipient to wear. The only upside is that the new recipient gets doused in a cistern full of water flushed over them whilst kneeling on the ground – so at least the shirt does get some sort of wash. Can you imagine having to receive the hashit tee shirt just worn by Fungus – everybody would go out of their way to make sure he never gets the Hashit. I still get shivers now whenever I see anybody wearing a yellow tee shirt who has not been awarded the Hashit – even worse when you have to see the Hares in yellow tee shirts each week. Offends my senses. Anyway one solution to finding different Hashit holders each week and is not focussing on the Hares only.

#### Point 2

Be kind to our Hares – if they don't do what they do we won't have a Hash. It is however very dangerous to rely on only a few people week after week and not make sure we get some new blood in place. Setting a Hash in Phuket is not easy – in fact it is very hard. I could set an hour's Hash in Abu Dhabi in about 3 to 4 hours the day before – never more than two hares and job done. A Phuket run takes several trips out over a number of days and is getting more and more difficult to find new run sites.

More people helping in this process can only be beneficial. For sure the Hares we have do enjoy what they do and because of their experience the quality of the runs is all the better for it. So step up and have a go. You only have to look at the Hareline over the next few months to see there is no new blood – the same olds over and over again – one noticeable exception Fat Bastard as a Virgin Hare in a few months. Although I think he actually is not VH.

#### Point 3

Wear a hash tee shirt and be proud of it as a badge of honour. We come together to be Hashers and to be the same – not to stand out as being different. Of course it's good to wear a shirt from another Hash because it shows you have Hashing history. Equally support your current Hash by wearing their shirt as well. Not wearing a Hash Tee shirt just says you don't really want to be there – well at least it does to me.

#### Point 4

Support your scribe. I was mortally wounded by GM this week when he admitted he had not read last week's report. If I don't have his support I have no one.

Of course I have my weak points:

I write too much

I write as a native English speaker

I don't know what to edit out

I don't know what people want

I'm boring

The week's become repetitive

The real audience is very small

Solutions:

Snappy – less words – more pictures (Boy Named Sue said this)

Do we want insight – piccies don't tell you everything

What do we really need to record that isn't already on the web site anyway.

Keep it fresh

Guest scribes – don't be shy

Let the scribe know what you want to say – they can help

How do we make it more readable and open to a wider range of readers – back to solution point 1
