phuket-hhh.com

Knowing that only a newbie could be impressed by him the infamous Secret Agent Dick Gobbler chose F.A. Cup's daughter as co-hare because she knows nothing about haring, or almost as much he does. She must have been impressed as he went back and forth along the blacktop road circling Bang Wad reservoir deciding how much concrete he could get away with before adding a few meters of jungle. Hash Shit was already being voiced after km 4 of concrete. I heard he only got lost twice.

Inspector Clouseau Trusted, Reliable Assistant GM's Balls Located
Following a month of uneasiness over the apparent loss (or theft) of GM Wilma's dinosaur necklace the mystery was somehow solved by our own incompetent inspector Who The Fuck Is Alice decked out in beret, hand-rolled cigarette (possibly), glasses and most trusted chicken detective. Revealing the necklace also consumed a baguette, cheese and a bottle of wine—most of which was drunk by the good inspector.
