

COMMITTEE MEETING #2

Monday, 11 April, 2022

GM: Not Long Enough

phuket-hhh.com

GM Not Long Enough called his second committee meeting for 11 April at Wilma's Rundetarn restaurant in Patong starting from 16:00 PM.

Attending: Not Long Enough, Wilma, Manneken Pis, Invisible Man, Cobbler, Tequila Slapper, Lucky Lek, Tootsie & Fungus as scribe.

GM opened the meeting thanking all the committee complimenting them for competently handling their tasks without his mismanagement. In other words his no-plan plan worked and would continue until his AGPU, now set for July 25th.

Points addressed:

NLE reported our Hash cash situation looks very good for covering the remainder of his term and the AGPU with a reserve carried forward for the next GM and committee.

GM we'll be providing a Songkran *surprise* and also between now and his AGPU some surprise announcements for extra-low-cost beers at a few circles.

Haring: The committee invites anyone interested in haring to please step up. We have a number of senior hares and need some younger, energetic hashers to get involved before the old-timers reach their expiration date.

Looking forward some of the current committee are interested in carrying on for the coming year and a few ask to be replaced. For any hashers who've joined recently consider serving on the committee. It's great way to meet hashers and support PH3. Speak to any committee member if you're interested in knowing more.

The committee decided to remove all PH3 website references to PISH based on the standing agreement that PISH events would not be competitive to our other Hashes.

All hashers are reminded to fully remove any and all rubbish they've created at a run. Please follow the well-known expression: If you haven't eaten it first, don't leave it.

NLE closed the meeting as Wilma's delicious appetizers arrived with menus to choose from. Of course from our opening to closing the beer flowed steadily.

ON ON, Scribe, Fungus
