

## SCRIBE REPORT RUN 1903

Saturday 1<sup>st</sup> April 2023  
Campari, Mannekin Pis  
Rawai - Soi Naya

**Phuket Hashers 91, Virgins 8, Visitors 4, Visiting Hashers 1**

### The Pre-Run

This week's walk/run location was just about 750 metres from Nai Harn Lake on the edge of a rubber plantation behind some houses on Soy Naya. The Laager site could be reached through a narrow road with walls either side that led to the rubber plantation. By the time we arrived parking was at near capacity and we had to reverse all the way out and park down another alleyway. The demeanour of the 'parking attendants' at this juncture was also showing some signs of stress.

### The Run and Hares

**Hares** this week were **Campari** and **Mannekin Pis**. Run master Joxy Moron stepped in to explain the rules of the Hash to Virgins and Visiting hashers and also announced that a high level decision had been made to select the role of Hash Horn from a different demographic group of the Hash i.e. a lady Hasher with **On The Game** selected for the role. Her demonstration of the **Hash** calls was good proof that she knows how to blow things!!.

**Mannekin Pis** stepped in to give the instructions for the run – apparently the lead hare **Campari** (according to **MP**) was nowhere to be found and was assumed still wrestling with parking attendant duties.

**MP** gave details of the run and walk saying the run should only be attempted by those who have a good level of fitness. Others were recommended to attempt the walk only. Runners would be on multicolour only and were invited to leave in the direction indicated by **MP**. The walkers were requested to stay back for separate instructions. **MP** also held up a sample of tokens that may be found on the run and if brought back may result in some sort of prize being awarded to the holder.

As I am so fit (ha!) I opted for the run but my decision was probably more swayed by the activities of the inner sanctum of spies who had been monitoring the recent activities of **MP** on Strava so thought they had a fairly good idea of what the run route would likely be. So off we set but not quite in the direction expected and proceeded to get into some heavy uphill going with nice bits of rope strategically placed to help us up. Although still going up we ended up on some much more well worn tracks which I recognised as one of the routes up to Black Rock which then aligned with the spy ring's understanding. So on up we went and as we neared the top and getting nice far reaching views out to sea on the way we started to veer to the right and head back down one of the ATV tracks. This

continued for a while until we did a further sharp right back into the rubber which had been recently cleared so made the going easy. Next down another track with a further sharp right under a barbed wire fence. At this juncture we had not heard the horn for a while but we continued on the paper that we found. It did disappear for a short distance then we found it again. We then arrived at a point whether the paper went both left and right and appeared to have pink paper going to the right. This we followed to the right but eventually this petered out. We were wondering what to do and then heard the horn to our left which also sounded like it was coming toward us. So we back tracked a little toward the Horn and then found paper basically going in the direction that would bring us back to the Laager site. We started following the paper and at the same point could hear the horn getting closer. At this juncture I was also thinking we had every chance to 'win' the Hash this week. However I was also suffering a wardrobe function in that my shorts were starting to fall down and I was in danger of losing my car keys. So I continued for a while like this but was losing ground to some of the FRB's. Eventually I had to stop and sort myself out. By the time I got going again a few more had passed and then we entered a series of zig zags with the people behind short cutting to get ahead. Eventually got back to the Laager site in a respectable time but winning will have to wait for another day or life!!

### **The Circle**

**GM** started the circle by calling in the **Hares** and the **Hash horn** for a drink and thanking them for their time and efforts. and also made the comment that if you thought that run was hard he had it on good authority that it was a down graded version of a much tougher run. There was mention of pink paper and that it would be discussed later. **Repressed One** was asked to give his verdict of the **Horn** His comments were unprintable

**Lucky Lek** was called in for **Annoumen** which he did.

I somehow missed the announcements but think it centered around this being the first week for Outstation Registration. There would also have been mention of the forthcoming Tinman run on 5<sup>th</sup> April. Details of both on the Website.

**MP** came into say that anybody lucky enough to collect a token will get them a free beer the cost of which will be to **MP's** account.

**Returners and Leavers** There were a few returners and leavers with most of the leavers due to return later in the year. However two leavers will not be returning so it was a sad farewell to long term hashers **Jungle Balls (414 runs)** and **Clitmas Pussy (393 runs)** who have both been GM's in their time with the various Phuket Hashes. We hope they may make the occasional return visit and wish them all the very best for the future.

**Registrars Jaws** and **Invisible Man** were called in to list the **Virgins** of which there were many – 8 to be precise and I think they all came into the Circle. Organisation seemed rather dismal with **IM** losing it for a while but eventually the dastardly deed was done.

**Visiting Hashers** – One Visiting Hasher this week – Mary Poppins from Chiang Mai

**Hash Shirts** One shirt this week for **Invisible Man** – 200 Runs.

**Steward Spot** - This week's Steward spot went to a virgin steward **Ice Humper**. He commenced with calling in the Hares for a down down. **IH** first asked who actually was the lead Hare and **MP** continued with his stance that **Campari** was that person. **IH** mentioned about parking issues at the Laager site - **MP's** view was that any issues were down to the lead Hare. **IH** noted all this and then invited in **Johnny** to help with the downs downs which rather than the usual beer would be with a snort of **Jägermeister**.

They then continued with a game of 'Rock, scissors, paper' but with a slight difference. The participants were blindfolded (**MP** and **Campari**) and each time they lost a round they would get poked in the bollocks with a stick. First to win three rounds was the overall winner. They never quite got that far.

A great spot from **Ice Humper**

### **Run Offences etc**

Run offences this week covered such aspects as Skipping, beer token, raising beer prices, beer token, cheating bastard, beer token, fire hazard, beer token, bald impressions, beer token, smiling impediment, beer token, barbed wire confusion, beer token, vomiting pussy, beer token, hidden butt plug knowledge, beer token, running inability, beer token, walking the walk, beer token, wood something, beer token, not registering, beer token, loose knicker elastic, beer token.

Promoters were **Fungus, GM, Mannekin Pis, Jungle Balls, Tootsie, Piss Drinker, Philthy Pisshead, Clitmas Pussy, WhoThe Fuck Is Alice, Ice Humper, Top Off**, etc.

Offensive ones were **Invisible Man, Julian, Up The Back, Philthy Bitch, GM, Campari, AvLasagne, Piss Drinker, Top Off, Jungle Balls, Lucky Lek, Asterix, Rusty Nail, Invisible Man, Who The Fuck Is Alice, Too Old Too Fuck, Lizard Eating Cunt, What Do You Mean** etc. etc.

**Joxy Moron** led the proceedings for the **Hashit** initially apologising for his apparent aggressive nature last week. He said he had corrected this during the week by suggesting his neighbour stab his screaming child but only in a passive aggressive manner.

With regard to this week's Hares he praised them for stepping up at the last moment to Hare the run, good pre-run briefing and instructions, good paper laying mostly and a good walk/run. The vote for **Hashit** was left to the assembled throng but **Piss Drinker** interjected and said he had never ever heard a Hasher call for beer prices to be increased. However this price increase was suggested by **Philthy Pisshead** who was celebrating his 60<sup>th</sup> birthday and thought the extra money collected could go toward a present for him. Not much support from the other Hashers for this but were more than happy to giving him the Hashit for this week and probably many weeks to come..

**GM** then announced the first boat was arriving (oh sorry! wrong week) and the Circle was declared closed.

**On On!**

**Sweaty Bollox**
