It was the final run of the year and numbers were a bit down as some hashers had new year parties to go, and some hashers who attended had to rush off straight after the run to get home and wash their hair in order to go and sit on a beach in the dark to watch fireworks at midnight, but hats-off to all those who made the effort and stayed for however long they could. The stalwarts who remained for the thoroughly entertaining circle were rewarded with 40 baht beers and a great time was had by all. Just a short write-up today as it's a hangover day, but this picture shows some of the fun we had, the chap sitting on the ice (with Semen Stains sitting on him) was a virgin who told us that he learned about the Hash from one of our members, Gay Pimp, but he couldn't remember much about him so maybe he just learned about the Hash from a gay pimp he met in Patong 😊

On-on and Happy New Year, Bobagob (part-time scribe for the 2022 / 23 season).
